**Project name** Mozambique LNG project  
**Project location** Cabo Delgado, Mozambique  
**Project description** Construction and operation of an onshore LNG plant

**Assessment and considerations** The project is not expected to be fully in line with the applicable host country requirements and international standards but deemed acceptable

The project was not yet full compliant with the international standards at the time of support but was planned to be compliant when construction of the LNG plant would start. This was arranged in an ESAP.
